6 March 1996 ACVC 2.0.1 Release Notes

ACVC 2.0.1 is a maintenance release. Improved technology allowed us to identify a number of tests that were incompatible with Ada95.

9X Basic tests were modified in order to make them compatible with both Ada95 and Ada83. When they could not be modified to achieve compatibility, they were deleted. Note that many of the deleted tests will be modified to check for Ada95 rules and returned to ACVC 2.1.

Some Ada95 tests had unintentional errors which were corrected for this release.

No new tests were added for this release, although the names of two tests were changed to more closely reflect the nature of the test.
