

## **Appendix C**

### **Output of CZ Tests**

The "CZ" tests are executed before any other ACVC tests to ensure that the ImpDef packages have been properly customized and that certain support units are working properly. These tests are not considered as Passed or Failed. If they do not perform as expected, the problems must be identified and resolved before conformity testing can continue.

This Appendix presents sample results from executing the "CZ" tests. The actual output will differ, at least in the time-stamp information.

## C.1. Sample Output From CZ0004

The following is the output from an execution of CZ0004 with a specific implementation. Note that it contains failure messages (indicated by '\*') that are expected, as is the final FAILED report. Note also that certain report lines depend on the customization of the ImpDef package, and will vary with the implementation.

## C.2. Sample Output From CZ1101A

The following is the output of CZ1101A from a particular implementation. The output of this test should have the same messages (except for the time-stamp) and reported results as indicated here (including failure reports), and the format of the output lines should be as described in the output text.

### C.3. Sample Output From CZ1102A

Test CZ1102A should execute and report PASSED as illustrated below. Only the time-stamp should differ.

```

## C.4. Sample Output From CZ1103A

Test CZ1103A may produce two different forms of output, depending on whether the implementation supports external files.

### C.4.1 Output When External Files Are Supported

If the implementation under test supports the creation and use of external text files, then test CZ1103A should produce the following report (except for differences in the time stamp). Note that failure messages are expected.

```
,... CZ1103A ACVC 2.2 98-08-26 14:48:10

      - CZ1103A BEGIN TEST WITH A FILE WITH TRAILING BLANKS.
      - CZ1103A FROM CHECK_FILE: THIS IMPLEMENTATION PADS LINES WITH
        BLANKS.

### **C.4.2 Output When External Files Are Not Supported**

If the implementation under test does not support external text files, then CZ1103A produces different output, as illustrated below.
